## **“New Mexico Liquid Waste Disposal & Treatment Regulations: Don’t Lose Your Commission in a Septic Tank” Taught by Link Summers**

at the Taos Town Council Chamber Bldg (El Taoseno Room) in Taos, NM  
on Friday, May 13, 2011 - from 8am to 5pm with 1 hour lunch break  
Total: \$90 (includes copy of regulations & policy papers)

\*This class counts as 8 CEU credits & is approved by the New Mexico Real Estate Commission.

### **Class Description:**

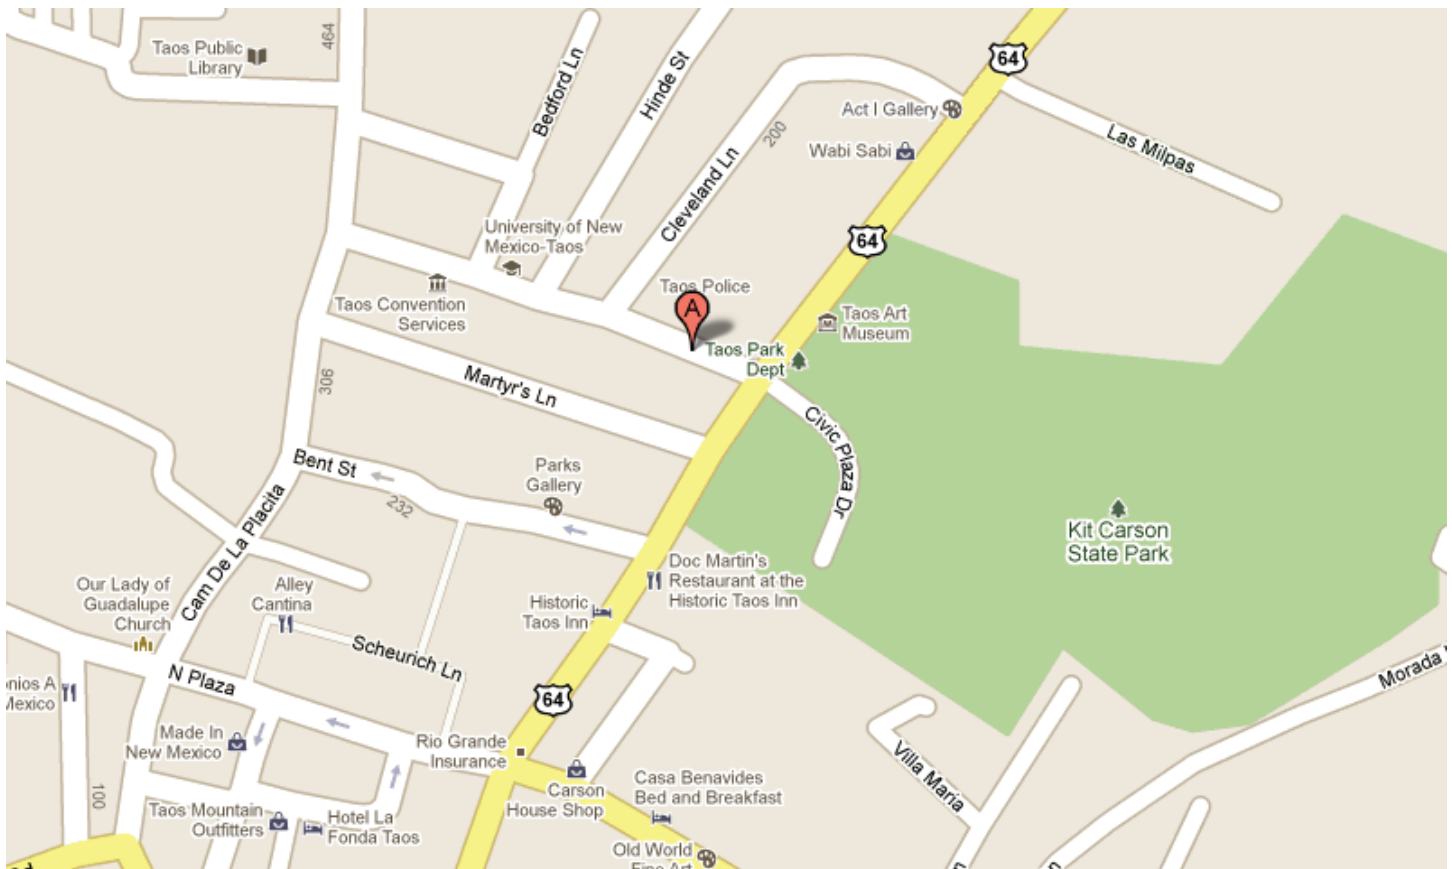

Did you know that anyone who sells property that has a septic or on-site system may be at risk due to permit fraud, inspection fraud and other irregularities?

Through no fault of your own, you as a real estate licensee may find yourself in the middle of illegal activity. For example, falsification of a liquid waste permit is loan fraud, if a federally insured or guaranteed loan is involved. This course aims to give you the tools necessary to protect yourself from these and other irregularities by teaching you:

- the liquid waste regulations in New Mexico
- all types of transfer inspections
- what to look for in a system permit
- how to spot a bogus or illegal permit

### **Class Location:**

Taos Town Council Chamber Building (El Taoseno Room), 120 Civic Plaza Drive, Taos, NM
